

W71H

Yealink DECT Handset

The Yealink W71H is the new generation of stylish modern wireless handsets designed for business use with a new ID design, which is more sleek, convenient to carry, and has better battery life and communication quality. Combining the benefits of wireless communication with the rich business features of Voice-over-IP telephony, it empowers users with convenient wireless communication, excellent speech quality, and encrypted call information by reliable DECT encryption technology.

The W71H is perfectly compatible with the Yealink W70B. The W71P system can support 10 handsets, 10 SIP accounts, and 20 simultaneous calls (2 calls per handset).

The W71H will be perfectly compatible with the W75 mini multi-cell system, providing you with more options for your office expansion.
