HD30L

| Hotel/hospitality features | Customisable faceplate | Anti-bacterial housing | Power over Ethernet (PoE) | HD audio |

Stylish, corded SIP lobby phone

Thanks to the "automatic dialing when picking up the handset" feature, you can't dial the wrong number. The Snom lobby phone ensures flawless usability. The connection to a predetermined destination, e.g. the switchboard, is made immediately after you pick up the handset. The HD30L can be customized thanks to a faceplate on the telephone base.

Basics and equipment

- Product information
  - Lobby phone HD30L + Corded handset | gunmetal black | PN 00007019
